TROUBLESHOOTING VIDEO PROBLEMS

- Verify Video Operation (2012 Models)

 Boot Logo models with X10 Micro-Processor
 above during power on. Boot Sound only (X9 MPU) during power on.
 - b. Customer Picture Test in user menu
 - c. "Display" (If display and Boot Logo & Customer Picture Test are OK the source or cables are first suspected . Then check for a defective input on the Main Board.)
 - d. Substitute with known good Source (external DVD or Signal Generator to check inputs on Main Board)

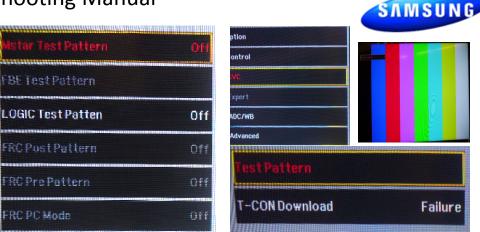

2. Using Test Patterns in Factory Mode - ENTER FACTORY MODE -

 Select an active source signal since Test Pattern may rely on signal source to appear or select TV Source mode.

'2012 LED Hybrid Disassembly cautions for Front Cover

To prevent the removal process from damaging the connections on the sides of the panel.

1. Place TV face up on cushioned table.

2. Cut and split the cover off at the top

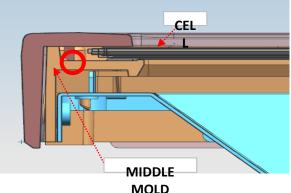

3. Carefully remove the Front Cover and insulated paper in Front of T-Con area.

4. Attach the Front Cover bottom first to the panel

- 5. Secure the plastic latch on the left and right side of the Front Cover as shown
- 6. Visually inspect the spacing between the Cover and the panel for equal clearance
- 7. Combine to stick the Front Cover Rib into the middle mold.
